

Pay.gov future change notification for CM/ECF filers:

Use of the Credit Card Security Code will become mandatory with Pay.gov on 2/1/2007.

Although the security code field has been on the data entry screen and its use has been optional, it will become a required field, as an additional protection for credit card holders, effective 2/1/2007.

See the next page for additional information.

Pay.gov 3.4

Agency Guide to the Collections Service

10.4 Plastic Card Features

10.4.1 Credit Card Security Codes

Pay.gov supports **Credit Card Security Codes**. Credit card security codes, the 3 – 4 digits printed on the back of a credit card, are used to verify that the purchaser has the credit card in hand when making a purchase on the Internet or over the telephone in order to reduce fraud. Each brand of credit card uses a slightly different code and may call the code by a different name. The following is a list of the acronyms for the CSC (Card Security Code):

- CVV2 (Credit Card Verification 2)
- CVC (Credit Card Validation Code)
- CID (Card Identification)
- CIN (Card Identification Number)

Online Payment

Step 1: Enter Payment Information

Pay Via Plastic Card (PC) (ex: American Express, Diners Club, Discover, Mastercard, VISA)

Required fields are indicated with a red asterisk *

Account Holder Name:

Payment Amount:
